SKILLS

Technical: Microsoft Project, Microsoft Office, Project Management, Maintenance Planning and Execution, Cost Management, Quality Assurance, Environmental Management, Industrial Hygiene and Safety Management, Logistics, SAP MM, PP, CO, PM, LE and WM modules, Solid Edge, Autocad, Electricity, PLC Programming, Training Development, Python (Numpy, Pandas), SQL, Tableau, Power BI, Power Automate, Power Apps, SharePoint, HTML, CSS, JavaScript, ReactJS, NodeJS, Express, GIT, Scrum.

Languages: Native Spanish, High Intermediate English.

EDUCATION

Mechatronic Technologist | Institucion Universitaria Pascual Bravo | 01/2001 – 08/2005.

Mechatronic Engineer | Instituto Tecnologico Metropolitano | 01/2016 – 06/2019.

CERTIFICATIONS

Full Stack Developer | Digital House | 09/2022.

Meta Data Analysis | Meta | 03/2025.

WORK EXPERIENCE

Omega Medical Imaging LLC **Sanford, FL**

Robotics Application Engineer **Present**

- Resolve and analyze Non-Conformance Reports (NCRs)
- Develop and optimize manufacturing processes
- Develop and maintain work instructions and procedures to ensure efficient manufacturing workflows and regulatory compliance
- Maintain comprehensive knowledge of Omega Medical Imaging product architecture
- Collaborate with Engineering to design, develop, and optimize robotic applications and testing strategies
- Serve as a manufacturing expert for Omega Medical Imaging Product
- Work with the regulatory team on configuration control and digital configuration confirmation
- Support sales and engineering by contributing to system configuration processes
- Implement programming and maintainability solutions
- Provide Tier 4 technical support
- Identify, analyze, and resolve production bottlenecks

Edwin B Stimpson Company Inc **Pompano Beach, FL**

Mechanical Maintenance **7/2023 – 04/2024**

- Performed preventive and corrective maintenance on waxer machines.
- Implemented mechanical and electrical upgrades to improve operational reliability.

Business Intelligent Developer | Data Analysis | Full Stack Developer **Deltona, FL**

Freelance **01/2022 - Present**

- Developed custom web applications using ReactJS, NodeJS, Express, and MySQL.
- Built automated workflows with Power Automate and business apps with Power Apps.
- Designed interactive dashboards and scorecards in Power BI and Tableau for client reporting.

Procter & Gamble Colombia **Medellin, Colombia**

Process Leader **06/2004 – 06/2022**

- **Digital Developer Leader:** led creation of Power BI dashboards and Power Apps solutions tailored to business needs.
- **Environmental and Industrial Hygiene and Safety Leader:** directed compliance programs for industrial hygiene and environmental safety, achieving full audit scores.
- **Start Up Project Leader:** managed plant-wide startup initiatives, including automation and machinery overhauls, using SAP CO for cost tracking.
- **Materials Leader:** oversaw inventory and production planning in SAP PP and WM, coordinating with Costa Rica's planning center.
- **Quality Assurance Leader:** enforced quality systems and led electrical/mechanical maintenance using SAP PM.
- **Power Controls & Information Systems Leader:** maintenance management for a specific area in all systems related to electrical, control, and information systems using SAP PM module.
- **Electrical and Mechanical Maintenance:** execute preventive, corrective, and predictive maintenance in manufacturing machines using SAP PM module.
- **Logistic Leader:** production execution in SAP WM and LE modules including materials requested, inventory, orders confirmations, and all tasks related to the manufacturing process.
